

REMARKS

Applicants gratefully acknowledge Examiner Do for taking time from his busy schedule on January 9, 2008, to conduct a telephone interview including Co-inventor Gustavson and Applicants' representative.

Examiner Do indicated that he would have feedback shortly from the 101 panel on the 101 issue for this application, as well as for the co-pending application S/N: 10/671,933.

During the interview, Co-inventor Gustavson explained the present invention, including a clarification of the determination step of the independent claims, as well as a clarification of the streaming step. Examiner Do suggested that these concepts be incorporated into the independent claims, which Applicants do above.

The Examiner expressed his gratitude to Dr. Gustavson for clarifying the concepts and terminology of the invention.

In view of the foregoing, Applicants submit that claims 1-3, 6-12, 14-19, and 21-23, all the claims presently pending in the application, are patentably distinct over the prior art of record and are in condition for allowance.

The Examiner is respectfully requested to pass the above application to issue at the earliest possible time.

Should the Examiner find the application to be other than in condition for allowance, the Examiner is requested to contact the undersigned at the local telephone number listed below to discuss any other changes deemed necessary in a telephonic or personal interview.
